

The Evergreen State College

February 3, 1982

TO: Long House Advisory Committee
FROM: Lloyd Colfax, TEST Faculty *LC*
SUBJECT: Visit with Quinault Tribal Council

We did not visit with the Tribal Council while it was in session. However, we did visit with several members of the council on an informal basis.

In attendance were, Joe Dela Cruz, Chairman; Oliver Mason, Vice Chairman; Phil Martin, Council member; and MR. BAUMGARDNER,

Generally speaking, this meeting was very positive and each of the council members were supportive of this idea (long house) however, there were questions still in their minds.

Establishing a strong and effective Indian image at an institution off the reservation has it's share of RISKS. Already the Chairman of this council is dissatisfied with the Indian program at the U.W. I believe that we assured him that we had a stronger committment here and that we were aware of the Indian concerns from the reservations.

Phil Martin would like us to establish a closer relationship with several groups on the reservation, including the school and the senior citizen program.

The Chairman suggested that we seek support from State legislatures and he said that he will offer what ever services he can provide.

The meeting ended on a very good note.
