Campus and Community

Evergreen is located on 1,000 forested acres on the southern shore of Puget Sound between the Cascade Mountains and the Pacific Coast. Olympia, a seaport community of 30,000, with a small but expanding population of diverse ethnic groups, is only five miles away. As the state capital, Olympia offers many opportunities for governmental internships. Seattle, Tacoma and Portland are nearby, providing a variety of weekend activities as well as cultural ties to ethnic communities.

Evergreen está situado en 1000 acres de arboleda en la costa sur del Puget Sound, entre las montañas Olímpicas. Olympia es una ciudad de 30,000 habitantes y tiene una pequeña población de personas de la minoría. Olympia es la capital del estado y ofrece muchas posibilidades para estudiantes que quieren tener prácticas con el gobierno del estado. Seattle, Tacoma y Portland están cercas y como ciudades más grandes ofrecen muchas oportunidades para diversiones durante los fines de semana y para mantener contactos culturales con las comunidades étnicas.

The Academic Program

Faculty
?

Evergreen maintains a 20-to-1 student-to-faculty ratio and emphasizes learning in small groups rather than large lectures. Students develop close working relationships with faculty members, and receive credit from them by personally-written evaluations rather than letter grades. Evergreen's versatile curriculum is devoted to intercultural values. It enables you to study with an emphasis in most fields such as business, education, pre-law and pre-med, computer science and ethnic studies.

Evergreen's modes of study include full-time programs; part-time courses; individual learning contracts, where a student studies with one faculty member; and internships, where one can apply what one has learned in real-world job settings. Full-time programs replace separate unrelated courses by combining a number of subjects in the study of a central issue or problem. Program activities may include:

- Lectures presented by faculty teams or guest speakers
- Seminars or group discussions among 15-20 students and one faculty member
- Laboratories
- Workshops
- Individual conferences with faculty members
- Field trips.

For example, "Political Economy and Social Change" is a full-time interdisciplinary program that shows the relationships between history, economics, sociology, political science and law. Other typical interdisciplinary programs include "Society and the Computer," "Great Books," "Native American Studies" and "Counseling the Culturally Different."

Programas Académicos

Evergreen mantiene una proporción de 20 estudiantes por cada profesor. Hacemos énfasis en la enseñanza en grupos pequeños mejor que en conferencias de grandes grupos. Los estudiantes y los profesores trabajan juntos y a través de estos trabajos se llegan a conocer muy bien. En lugar de notas o calificaciones, los profesores escriben cartas de evaluación con lujo de detalles acerca del trabajo que cada estudiante ha hecho. El plan de estudio incluye una perspectiva intercultural y permite estudiar varias disciplinas tales como: negocios, certificado para la enseñanza primaria o secundaria, computadoras electrónicas, estudios preparatorios para continuar una carrera en leyes o medicina, y estudios interculturales.

Evergreen ofrece varios planes de estudio, por ejemplo: oportunidades para los estudiantes que quieren estudiar tiempo completo o por horas trimestrales, oportunidades para estudio individual basado en un contrato entre un profesor y un estudiante, y oportunidades de hacer prácticas en agencias públicas o privadas. Los programas académicos reemplazan el estudio de cursos individuales sin relación el uno al otro. Estos programas combinan varios ramos académicos para estudiar un tema central. Las actividades del programa pueden incluir:

- Conferencias presentadas por miembros de la facultad u otros expertos.
- Participación en reunión de estudiantes para discutir y analizar problemas y diferentes puntos de vista.
- Ejecutar experimentos en los laboratorios.
- Entrevista con los profesores.
- Excursiones.

Por ejemplo, "Political Economy and Social Change" es un programa cuyo tema central demuestra la relación entre la historia, la economía, la sociología, la ciencia política, y la ley. Otros programas interdisciplinarios incluyen "Society and the Computer," "Native American Studies," and "Counseling the Culturally Different."

What Our Students Say About Evergreen . . .

"I've been encouraged to investigate, evaluate and communicate. I've been taught to do so with precision and to exercise compassion. I've been shown that to do so, I must trust myself, to share who I truly am, and risk rejection. At Evergreen I've been pushed—to develop my intellect and my spirit."

Paul Gallegos
Santa Ana, California

"I've found that studies at Evergreen approach things by looking at the interconnections between ideas. So far I've been able to see connections between my studies, job and personal life that I wasn't aware existed. In my job as a Student Manager at Housing, I'm not just learning theory, I'm learning office procedures, bureaucracies and how to deal with people."

Sheila Manalo
Oak Harbor, Washington

Admissions Counselor Diane Kahaumia and student Tom Williams

“Evergreen is the only school I’ve come across that enables me to develop in my own way, as opposed to getting expertise in a limited area of knowledge. It’s the one school where I’ve been able to study as broad an area as social sciences from the standpoint of history, psychology, sociology and other areas—and then step out of that area, find an internship, put together a contract with a faculty member and come up with a learning experience that’s tailored to my individual interests.”

Tom Williams
Gary, Indiana

“Before Evergreen I had never heard of an Indian professor and never read a book written by an Indian. So it’s been a very moving experience to have an Indian faculty member standing before me, giving me novels written by Indians, Asians, Chicanos and Blacks.

“(Faculty Member) Yvonne Peterson has been a real inspiration. She knows what it’s like to be an Indian in a non-Indian environment. As a faculty, as an Indian woman, she has the ability—without letting you know it—to empower you, to let you believe that you have the right answers, that you *are* a leader.”
