## GUEST SPEAKER

Governor Chris Gregoire was elected as Washington's 22nd Governor in 2004. Prior to  
serving as governor, Gregoire served three terms as attorney general - the first woman to be  
elected to the position in Washington.

While director of the Washington Department of Ecology, Gregoire negotiated the safe  
cleanup and permanent storage of radioactive wastes at the Hanford Nuclear Reservation.  
The site is regarded as the largest environmental cleanup project in the world.

Christine O'Grady was raised in Auburn, Washington, by her mother who worked as a  
cook to support the family. After graduating from Auburn High School, Chris attended the  
University of Washington where she graduated with a teaching certificate and Bachelor of  
Arts degree in speech and sociology. She met her husband, Mike, in September of 1971 when  
they both worked for the Washington Department of Social and Health Services. Governor  
Gregoire received her law degree in 1977 from Gonzaga University.

## PROCESSIONAL MUSIC

Provided by the Alaska Kuteeyaa Dancers, a local Tlingit dance group.  
Permission to use the entrance song was given by Ruth Demmert of Kake,

## CEREMONIAL MACE

Originally a weapon used in medieval warfare by a king or great noble, the mace has become a symbol used on ceremonial occasions. As an academic device, the mace goes back to 16th-century England, when Queen Elizabeth I presented a replica of her own royal mace to the corporation of the University of Oxford in 1589. She ordered that it be used in all ceremonies to represent the royal presence and the authority granted to the university to issue degrees under the royal insignia. Since that time, it has increasingly become the custom for European, and now American, colleges and universities to use ceremonial maces during graduation exercises.

The Evergreen State College mace is a gift from the late Byron Youtz, former Academic Vice President and Provost, who donated the materials, and Faculty Member Emeritus Earle McNeil, who gave his time and talent to its creation.

The shape of the cap is suggestive of a crown and represents the principle of knowledge and experience. To remind us that such an integration is a carefully balanced blend of diverse aspects of human nature, there are four inlaid circles symbolizing four major ways of experiencing the world—thinking, feeling, intuiting and sensing—and four main characteristics of the human mind—wisdom, innocence, introspection and illumination.

## THE COLLEGE MEDALLION

Medallions are traditionally worn by presidents and chancellors at ceremonial occasions. The medallion designed for Charles McCann for his inauguration in 1972 was given by Dr. McCann to the Library Archives.

The college's second medallion (which President Purce wears today) was designed in September 1994 by Spokane artist Joyce Attwood. It is fabricated of moonstone (from Nepal), paua shell (from New Zealand), turquoise, silver, copper, brass, gold and acrylic and is suspended on a 30-inch chain (from Thailand). The medallion design shows an evergreen tree with Mount Rainier and the sea in the background. It is an interpretation of the Evergreen logo, designed in 1973 by Connie Hubbard, the college's first graphic artist. In 1983, the Board of Trustees approved the "tree" as the official college emblem and it was registered with the Secretary of State as Evergreen's logo.

## ACADEMIC COSTUMES

The origins of academic dress date back to the 12th and 13th centuries, when universities were taking form. The ordinary dress of the scholar, whether student or teacher, was the dress of a cleric. Long gowns and hoods were worn and may have been necessary for warmth in unheated buildings. Today, many institutions choose distinctively colored gowns. The design of the sleeve indicates the level of the degree earned by the wearer. Hoods have both the colors of the institution and a band indicating the academic discipline in which the degree was earned.

## GEODUC FIGHT SONG

1. Go, Geoducs go,  
Through the mud and the sand,  
let's go.  
Siphon high, squirt it out,  
swivel all about,  
let it all hang out.
2. Go, Geoducs go,  
Stretch your neck when the tide  
is low,  
Siphon high, squirt it out,  
swivel all about,  
let it all hang out.
