SUBJECT: Third World Program on April 27

Mary Nelson has been working with the Third World community and the administration to plan a program on the Tacoma campus for the Third World community on April 27. The program is designed to improve relations among Third World students, staff and faculty. The program will involve a discussion of issues relating to the quality of life for Third World people at Evergreen (curricula, retention and recruitment, affirmative action, cultural literacy, etc.) and will end with suggestions for an action plan.

This memo is to let you know that the administration encourages and supports this kind of activity. This is in keeping with the spirit and intent of our affirmative action efforts. I encourage other groups who are interested in a similar activity to consider planning and organizing events which are beneficial to staff and faculty (and students).
