The Evergreen State College
Olympia, Washington 98501 753-2780

FOR IMMEDIATE RELEASE

Bids on a massive site improvement project on the campus of The Evergreen State College will be issued Thursday, May 12, by the Division of Engineering and Architecture, Department of General Administration, Olympia.

Opening of bids is scheduled for June 4, with construction work tentatively scheduled to begin in mid or late June.

The large contract contains numerous projects, including the following: utility distribution tunnels for heating, air conditioning, electrical and communications services; an electrical sub-station for campus power requirements; parking lots; outdoor lighting; service roads finishing work; on-campus storm and sanitary sewer systems; water supply system (pipes, pumping station, two one-million gallon ground-level storage tanks for reservoir purposes); sidewalks; and work on a 5,000 foot section of a ring road around the campus.
