The Evergreen State College

Olympia, Washington 98505 ~~753-3125~~

753-3125

FOR IMMEDIATE RELEASE

June 8, 1973

J. D. Dutton Company of Olympia today submitted the apparent low bid of \$165,000 for site improvement work around the Seminar Building, now under construction at The Evergreen State College.

Dutton's bid, one of two opened today by the Division of Engineering and Architecture of the State Department of General Administration, was slightly above the engineer's estimate of \$163,000.

Project work will include construction of a service road, retaining wall, and a storm sewer to serve the Seminar Building, scheduled for completion during 1974.
