

THE EVERGREEN STATE COLLEGE

Calendar-Newsletter

April, 1970

Volume 2, Number 4

NEWS NOTES

Innundated by paper, their nerves ragged from the jangling of telephones and seemingly working around the clock, Vice President and Provost David Barry, Evergreen's three deans and the academic secretarial group are piecing together that complicated puzzle referred to as faculty recruiting. The major problem has involved establishing procedures and finding enough stamina and hours in the day to sift through information received in approximately 3,000 written inquiries and uncounted telephone conversations to find the very best people available. The initial effort was a highly selective search for 18 to 20 senior faculty to help the provost and deans develop beginning academic programs in accord with planning guidelines which reflect Evergreen's goals and objectives. Once the faculty planners have been appointed, attention will focus on selecting about two dozen more persons to join the first group as instructors in September, 1971. The search also includes candidates for faculty positions in 1972 and beyond to meet demands that will rise with enrollment.

"The importance of appointing faculty willing to help devise undergraduate educational opportunities that stimulate processes of lifelong learning and encourage the development of students as thoughtful, flexible and humanly committed persons can't be overestimated," according to Dr. Barry. "We must have people on our staff who understand the dramatic changes taking place in contemporary America and, consequently, in higher education; people willing to implement new modes of instruction that insure that learning is taking place, not just the one-way transmission of information. We owe it to the State of Washington to find the talented, committed people required for shaping programs that meet society's needs--both today and in the future. What happens in these critical months ahead will, in large measure, set the tone of academic program at Evergreen for the next several years."

"In seeking faculty, we have sought special kinds of persons. They must have interdisciplinary work experience and, particularly in the case of the planning group, must have been previously involved in designing, implementing and refining interdisciplinary courses or programs. They must be persons who have been teaching right up to their appointment at Evergreen to assure they understand today's college students. They must be mature instructors whose first commitment is to improve teaching and to assure that learning is taking place. They must have been exceptionally good students themselves, with evidence of current concern for their own scholarship. They must be professionals in their fields of interest, but, at the same time, keenly aware of relationships to other disciplines. They must be alert to the national scene in higher education and to the sweeping changes that are taking place."

"We try to make these expectations crystal clear when we talk to faculty candidates and spell them out in the contractual letters we offer those receiving appointment. We point out that Evergreen's evaluation of teaching will place emphasis on contributions to the team teaching program, to the development of learning strategies, to supervision of individual and independent study, to counseling of students and other professional activities. We also point out that evidence of scholarship and professional growth will be recognized in certain kinds of publication and in service to the larger community, both academic and public."

The mechanics of finding the relatively small group of faculty members from a file of more than 3,000 names are staggering and place heavy burdens on the energy, will and time of the college's small staff, particularly the provost, deans and their secretarial support team. Dr. Barry's secretary, June Kisler, estimates that 25 to 125 inquiries pour in daily. "We've probably heard from every state in the union as a result of advertising in professional journals, through personal contacts of the provost and deans, by word of mouth carried from conferences and conventions, through information sent from local residents who have relatives or friends teaching somewhere," she says. "The word just gets around and not only in the United States. We've had letters from England, Guam, the Virgin Islands, Denmark, Yugoslavia, Australia, France, Puerto Rico, even one from a serviceman in Viet Nam. Most of those inquiries are from U.S. citizens living, teaching or studying abroad. It's fantastic!"

In a nutshell, this is how the process works:

Information from each inquiry is placed in a separate file folder, labeled by academic division, and also placed in an alphabetized card index. Every person inquiring about a faculty position receives a letter from the provost, plus various other materials, including a statement of academic planning goals, brochure, college fact sheet, etc.

Meanwhile, material in the file folders is scanned, with an eye toward locating applicants who have interests and concerns compatible with those of the college. Files are then tagged for immediate attention by the provost and deans so that more information can be requested, including a vita (if one has not been sent) and an essay stating how the applicant feels his experiences and concerns would relate to Evergreen's programs as outlined in the statement of planning goals.

Responses are added to applicants' files, which are reviewed by the provost and deans, who select and rate those persons who should be contacted again. After development of a priority list by the provost (and assuming the files are complete), the top-ranked applicants are given personal interviews, either on campus or at a location convenient to the college staff. Not only do the provost and deans participate in the interviews, but insofar as schedules allow, the President's Council (the president and three vice presidents) and other administrative staff members are given opportunities to meet and talk with the candidates, particularly in the case of on-campus visitations.

Following completion of the interviews, the President's Council and college academic officers confer to determine which persons will be offered contracts by the provost. Once new faculty members sign contracts and prior to their move to Olympia, the college staff keeps them abreast of late developments; assists in "introducing" them to Thurston County and the State of Washington; and helps make other personal arrangements.

Obviously, the process is a long, arduous one, but says Vice President Barry, "It's the payoff that counts." "We can say without reservation that we are assembling an excellent group of persons who are devoted to first-rate teaching and are national leaders in their fields of endeavor." He also emphasized that the successes to date reflect the "tremendous support in time and effort that everyone associated with The Evergreen State College has given. That's where the credit belongs."

* * * *

In case you've been lost in the rapid shuffle of announcements about faculty appointments to date, here's a quick rundown of the first seven (all reporting for work September 1):

Richard W. Alexander (San Jose State College), Assistant Professor of English.

Richard B. Brian (San Jose State College), Associate Professor of Mathematics.

Lawrence L. Eickstaedt (State University of New York, College at Old Westbury),
Assistant Professor of Biology.

Willard C. Humphreys, Jr. (New College, Sarasota, Florida), Associate Professor
of Philosophy.

Robert Sluss (State University of New York, College at Old Westbury), Associate
Professor of Biology.

Sidney D. White (Oregon State University), Professor of Art.

Frederick H. Young (Oregon State University), Professor of Mathematics.

* * * *

While on the subject of personnel, we should point out that Donald Humphrey, Dean of the Division of Natural Sciences and Mathematics, reported for full-time duty April 1. His commuting days between Olympia and Corvallis, Oregon finally have ended and he can now devote full efforts to tackling the mountain of work facing him, not the least of which is further recruiting and helping program the first two phases of the Science Laboratories Building. (You might say he had no time for fooling around April 1, nor will he ever.) Also joining the staff this month--April 8 to be exact--will be Computer Systems Analyst Jim Johnson, who has held a similar position at the University of Washington since 1967. Other analysts will follow in the months ahead as Director of Computer Services Bob Barringer moves further and further into his massive workload.

* * * *

Speaking of computers and such, a couple of reminders from Bob. Representatives of Computech, the Renton-based consulting firm which is helping explore requirements for administrative reporting information systems, will be on campus April 2 (2:00-3:00 p.m.) for a final presentation of findings. This includes a list of tasks necessary to the development and implementation of the important systems, plus a discussion of recommended procedures for monitoring progress.

At the same time, our friendly computer director will be offering a series of about five lectures, plus workshops, in a conversational computer language for the on-campus Tymshare terminal. The program starts April 6 and will include a broad description of computer language and a review of material to be presented in the future. Bob threatens those choosing to attend with a big stack of homework, but then he's kidding. (Isn't he?) Anyway, if you want to learn how to converse with a computer (a skill the entire world may need at some point), this may be your cup of tea. Or should we say flagon of Fortran? (Maybe we shouldn't!) Cup of Cobol?

* * * *

We seem to have a computer hang-up this month because here's another little tidbit: Evergreen is one of six state colleges and universities participating in a computer system for analyzing the costs of building maintenance over a four-year period. The system was developed at Eastern Washington State College and has been distributed to systems personnel at the other institutions. Designed to provide college budget and physical plant personnel with cost projection figures for a four-year period, the system's objective is to figure the accumulated total square feet of buildings currently in use and projected over the next two biennia. From there the computer will calculate replacement costs based on the physical plant replacement cost index, including increased costs for such things as air conditioning and evening use and adjusting costs for times when the buildings are not in use. The system, which took

four months to complete, was developed at the request of Denis Curry, Director of the Office of Interinstitutional Business Studies and one of our Evergreen officemates.

* * * *

Dean of Library Services Jim Holly has put together an April 10 and 11 conference at which the involvement of the library in learning strategies at Evergreen will be discussed. The conference, another in a series of staff academic planning meetings, has the following general objective: "To analyze, define and clarify the various human and material resources available and desirable for Evergreen in support of learning processes of the college so that the most effective utilization may be achieved. Specifically, the conference should further define the role at Evergreen of the library, its staffing, resources and services, and provide assistance to interested personnel of the college in the further development of programs and recruiting."

In addition to staff members, the conference will include such resource consultants as:

Dr. Jerrold Kemp, San Jose State College, California
Dr. Patricia B. Knapp, Wayne State University, Detroit
Miss Kathleen Molz, U. S. Office of Education, Washington, D. C.
Miss Betty Pollard, Forest Park Community College, St. Louis
Robert S. Taylor, Hampshire College, Amherst, Massachusetts
Dr. Gerald L. Torkelson, University of Washington

* * * *

Another date to remember is Sunday, April 19. That's the day Evergreen and the Squaxin Indian Tribal Council will cooperate in the dedication at the State Capitol Museum in Olympia of a petroglyph (ancient rock carving) found on the college's waterfront property. The rock, weighing approximately 500 pounds and bearing carvings by Indians of the South Puget Sound region, has rested on the shores of Eld Inlet for many years. After purchase of the waterfront property, college officials learned of the existence of the petroglyph, which the Indians consider a sacred object, and initiated steps to have it removed to protect it from inadvertent harm. The Squaxin Tribal Council consented to have the rock moved to the museum, where it will be placed on special display, with the agreement that the tribe may remove it to an Indian museum should such a facility develop in the future. Dedication of the petroglyph will take place at 3:00 p.m. April 19, with Governor Dan Evans; Evergreen President Charles McCann; Mrs. Florence Sigo, a member of the Squaxin Tribal Council; Dr. Jess Spielholz, President of the State Capitol Historical Association; and Professor Robert E. Greengo, of the University of Washington's Department of Anthropology, participating. The ceremony also will include performances by the Quinault Tribal Dance Group from Taholah. Dedication of the petroglyph will be the concluding segment of a program sponsored by the Governor's Festival of the Arts, the State Arts Commission and the State Library Commission. The Governor's Invitational Writers' Day Open House and Awards Ceremony will be held at the State Library from 1:00 to 3:00 p.m. Activities then will move to the Museum for dedication of the petroglyph and for a preview of paintings and sculpture by Oregon artists from the collection of the Portland Art Museum.

* * * *

Despite the fact that admissions and registration personnel have not yet joined the staff, Evergreen will be participating in the 1970 High School College Conference program, sponsored by the Washington Council on High School and College Relations. The College Conference program is a statewide effort in which high school students

interested in post secondary education are given an opportunity to listen to presentations by representatives of all colleges in Washington. Evergreen will send representatives to several meetings in Western Washington during April to inform interested students about developments to date and our plans for the future. Presentations will be made at various locations for students from Pierce, Thurston, Grays Harbor, Pacific, Clark, Cowlitz, Skamania, Klickitat, Wahkiakum, Lewis, Mason, Clallam, Kitsap and Jefferson Counties. Probable Evergreen representatives at the conferences will be President Charles McCann, Vice President and Provost David Barry, Executive Vice President E. J. Shoben, Jr., Dean of Natural Sciences and Mathematics Donald Humphrey, Director of Computer Services Robert Barringer, and Director of Information Services Dick Nichols.

* * * *

Turning to the business of building buildings and improving sites at Evergreen, here's some information by way of Director of Facilities Planning Jerry Schillinger's office: Hoffman Construction Company of Portland, contractor for the library building, continues preliminary work on the placement of concrete footings for walls and columns. Once this work is completed, the company will begin forming the basement walls and the building will start rising from the huge excavation. No problems as yet and the job is on schedule.

A tentative schedule for capital project bidding has been set up, giving an overall view of the intense activity on tap in the weeks ahead. Bids for remodeling the president's residence will be issued shortly and opened late in April. Bids for the shop and garage facility will be issued about April 21 and opened May 14. Others are as follows:

Site Improvements -- Bids to be issued about May 4 and opened June 4.

Heating Plant -- Bids to be issued about May 15 and opened June 11.

Residence Halls -- Bids to be issued about May 25 and opened June 23.

Lecture Hall -- Bids to be issued about May 18 and opened June 16.

College Activities Building -- Bids to be issued about June 1 and opened June 30.

No date has been set for issuing or opening of bids on the College Recreation Center and Science Laboratories.

* * * *

Meanwhile, the Board of Trustees has appointed architects to develop schematic drawings for proposed 1971-73 construction projects. The drawings will accompany capital budget requests which the college will submit for consideration by the Governor in preparation of his budget proposals to the 1971 Legislature. Here are the architectural assignments:

Second Phase Master Planning Studies -- Robert Durham of Durham, Anderson and Freed, Seattle

Second Phase Shops and Garages -- Bennett and Johnson, Olympia

Central Stores and Receiving -- Peters, Flotree and Sogge, Olympia

Second Phase Recreation Center -- Robert B. Price and Associates, Tacoma
Second Phase College Activities Building -- Kirk, Wallace and McKinley, Seattle
Second Phase Science Laboratories -- Naramore, Bain, Brady and Johanson, Seattle
Computer Center in Library -- Durham, Anderson and Freed, Seattle
Addition of emergency vehicle garage to Heating Plant complex -- Bennett and
Johnson, Olympia
Second Phase Site Improvements -- Quinton-Budlong, Seattle
Second Phase Landscaping -- Quinton-Budlong, Seattle, and Eckbo, Dean, Austin
and Williams, San Francisco
Second group of Residence Halls -- Durham, Anderson and Freed, Seattle
Health Services Building -- Balzhiser, Rhodes, Smith and Morgan, Seattle
Drama-Music Building -- Walker, McGough, Foltz, Spokane
Fine Arts Building -- Henry Klein and Associates, Mount Vernon
Seminar Building -- The Bumgardner Partnership, Seattle

CALENDAR OF EVENTS

(April 2-30)

Thursday, April 2

E. J. Shoben, Jr. -- High School-College Conference, Tacoma Community College,
9:30 a.m.

Ken Winkley -- State Building Authority meeting with bond counsel and finan-
cial consultants to discuss leases of college property, bond
resolutions and interim financing of Building Authority con-
struction, Office of the State Treasurer.

Dean Clabaugh -- Department of Personnel Panel - all day.

Presentation of Computech report, Library Conference Room -- 2:00 p.m.

Friday, April 3

Ken Winkley -- State Building Authority meeting, State Treasurer's office.

David Barry -- Administrative Planning Conference, Eastern Washington State
College.

Executive Vice President's Staff Meeting -- Library Conference Room, 2:30 p.m.

Monday, April 6

Denis Curry -- Participating in Western Interstate Commission on Higher
Education Management Information System "Visiting Professionals
Program" at Boulder, Colorado (April 6-17).

Bob Barringer -- First in series of courses on computer language, Library
Services Trailer, 12:00 noon -- everyone welcome.

Tuesday, April 7

Charles McCann and -- Meeting with Walt Howe, Director of Office of Program Planning
Dean Clabaugh and Fiscal Management, 10:00 a.m.

President's Council Meeting -- 3:00 p.m.

Wednesday, April 8

In-House Seminar for entire staff, 11:30 a.m.-1:00 p.m., conducted by Executive
Vice President E. J. Shoben, Jr. -- Library Services Trailer.

Friday, April 10

Library Learning Strategies Conference, Library Conference Room -- all day.

Saturday, April 11

Library Learning Strategies Conference, Library Conference Room -- all day.

Monday, April 13

Computer Language Class -- Library Services Trailer -- noon.

Dick Nichols -- High School-College Conference, Tumwater High School --
9:00 a.m.-12:00 noon.

E. J. Shoben, Jr. -- High School-College Conference, Grays Harbor College --
12:30 p.m.

Tuesday, April 14

Charles McCann -- Management Course for College Presidents, Hamilton, New York
(April 14-18).

E. J. Shoben, Jr. -- Speaker for inauguration of Dr. Harry A. Marmion as President
of St. Xavier College, Chicago. (Also in Chicago April 15)

Wednesday, April 15

President's Council Meeting -- 2:00 p.m.

Thursday, April 16

In-House Seminar for entire staff, Library Services Trailer -- 11:30 a.m.-1:00 p.m.,
conducted by Jerome Buzzard, Thurston County Prosecuting Attorney. Subject: "Youth,
Drugs, Law Enforcement".

Friday, April 17

Donald Humphrey -- Danforth Conference -- "The Crisis on Campus" - Sun River,
Oregon (also April 18 and 19).

Robert Barringer -- Interinstitutional Systems Analysts Committee meeting at
Western Washington State College.

Buel Brodin -- Higher Education Personnel Board meeting, Eastern Washington
State College -- 10:00 a.m.

Monday, April 20

Computer Language Course, Library Services Trailer -- 12:00 noon.

Charles McCann -- Attend Association of Governing Boards of Universities and
Colleges annual meeting, San Francisco (also April 21).

E. J. Shoben, Jr. -- High School-College Conferences, Olympia (9:15 a.m.) and
North Thurston (12:45 p.m.)

Tuesday, April 21

Dick Nichols -- High School-College Conference, Centralia Junior College --
9:45 a.m.

Wednesday, April 22

In-House Seminar for entire staff, Library Services Trailer -- 11:30 a.m.-1:00 p.m.
Subject: "The Happening".

Wednesday, April 22 (cont'd.)

President's Council meeting -- 2:00 p.m.

Thursday, April 23

Board of Trustees Meeting, Library Services Trailer, 1:30 p.m. (Tentative).

Denis Curry -- Interinstitutional Committee of Business Officers meeting, Pullman.

Dick Nichols -- High School-College Conference, Olympic College (Bremerton) -- 9:30 a.m.

Charles McCann -- Speech to Shelton High School Honor Society annual meeting -- 8:00 p.m.

Friday, April 24

In-House Seminar for entire staff, Library Services Trailer -- 11:30 a.m.-1:00 p.m. conducted by Miss Elizabeth Sewell, resident poet for winter and spring quarters at Central Washington State College. Subject: "Bensalem College: A Light That Failed".

Dean Clabaugh and Denis Curry -- Interinstitutional Committee of Business Officers meeting, Pullman.

Saturday, April 25

David Barry -- Attend Conference on Environmental Education, Foothills College, Los Altos, California.

Monday, April 27

Computer Language Course, Library Services Trailer -- 12:00 noon.

E. J. Shoben, Jr. -- Site Review meeting, Berkeley, California Research and Development Center. (Also April 28)

Wednesday, April 29

In-House Seminar for entire staff, Library Services Trailer -- 11:30 a.m.-1:00 p.m. conducted by Dean of Library Services Jim Holly. Subject: "Report on Santa Cruz Conference".

Charles McCann -- Speech to Alpha Gamma Delta meeting, Jacaranda Restaurant, 6:30 p.m.

Thursday, April 30

David Barry -- Attend National Conference on Collective Negotiations in Higher Education, City University of New York.

***NOTE

Evergreen also will send representatives to High School-College Conferences on April 14 (Lower Columbia College, Longview); April 15, 16, 17 (Clark College, Vancouver); and April 22 (Peninsula College, Port Angeles). Specific individual assignments not yet determined.

Despite the fact that admissions and registration personnel have not yet joined the staff, Evergreen will be participating in the 1970 High School College Conference program, sponsored by the Washington Council on High School and College Relations. The College Conference program is a statewide effort in which high school students

interested in post secondary education are given an opportunity to listen to presentations by representatives of all colleges in Washington. Evergreen will send representatives to several meetings in Western Washington during April to inform interested students about developments to date and our plans for the future. Presentations will be made at various locations for students from Pierce, Thurston, Grays Harbor, Pacific, Clark, Cowlitz, Skamania, Klickitat, Wahkiakum, Lewis, Mason, Clallam, Kitsap and Jefferson Counties. Probable Evergreen representatives at the conferences will be President Charles McCann, Vice President and Provost David Barry, Executive Vice President E. J. Shoben, Jr., Dean of Natural Sciences and Mathematics Donald Humphrey, Director of Computer Services Robert Barringer, and Director of Information Services Dick Nichols.

Turning to the business of building buildings and improving sites at Evergreen, here's some information by way of Director of Facilities Planning Jerry Schillinger's office: Hoffman Construction Company of Portland, contractor for the library building, continues preliminary work on the placement of concrete footings for walls and columns. Once this work is completed, the company will begin forming the basement walls and the building will start rising from the huge excavation. No problems as yet and the job is on schedule.

A tentative schedule for capital project bidding has been set up, giving an overall view of the intense activity on tap in the weeks ahead. Bids for remodeling the president's residence will be issued shortly and opened late in April. Bids for the shop and garage facility will be issued about April 21 and opened May 14. Others are as follows:

Site Improvements -- Bids to be issued about May 4 and opened June 4.

Heating Plant -- Bids to be issued about May 15 and opened June 11.

Residence Halls -- Bids to be issued about May 25 and opened June 23.

Lecture Hall -- Bids to be issued about May 18 and opened June 16.

College Activities Building -- Bids to be issued about June 1 and opened June 30.

No date has been set for issuing or opening of bids on the College Recreation Center and Science Laboratories.

* * * *

Meanwhile, the Board of Trustees has appointed architects to develop schematic drawings for proposed 1971-73 construction projects. The drawings will accompany capital budget requests which the college will submit for consideration by the Governor in preparation of his budget proposals to the 1971 Legislature. Here are the architectural assignments:

Second Phase Master Planning Studies -- Robert Durham of Durham, Anderson and Freed, Seattle

Second Phase Shops and Garages -- Bennett and Johnson, Olympia

Central Stores and Receiving -- Peters, Flotree and Sogge, Olympia

Second Phase Recreation Center -- Robert B. Price and Associates, Tacoma
Second Phase College Activities Building -- Kirk, Wallace and McKinley, Seattle
Second Phase Science Laboratories -- Naramore, Bain, Brady and Johanson, Seattle
Computer Center in Library -- Durham, Anderson and Freed, Seattle
Addition of emergency vehicle garage to Heating Plant complex -- Bennett and
Johnson, Olympia
Second Phase Site Improvements -- Quinton-Budlong, Seattle
Second Phase Landscaping -- Quinton-Budlong, Seattle, and Eckbo, Dean, Austin
and Williams, San Francisco
Second group of Residence Halls -- Durham, Anderson and Freed, Seattle
Health Services Building -- Balzhiser, Rhodes, Smith and Morgan, Seattle
Drama-Music Building -- Walker, McGough, Foltz, Spokane
Fine Arts Building -- Henry Klein and Associates, Mount Vernon
Seminar Building -- The Bumgardner Partnership, Seattle

The Evergreen State College

March 5, 1970

DEAR FRIEND OF THE COLLEGE:

Developments at The Evergreen State College often occur so rapidly that it's even difficult for the staff to stand back and get a general picture of what's happening, let alone the public. By issuing the attached brief monthly newsletter, we hope to be able to better inform you about progress because of your special interest in Evergreen. We hope to supplement this report from time to time. Meanwhile, if you desire any information about the College or wish to discuss any mutual concerns with us, don't hesitate to call me (753-2780) or Executive Vice President E. J. Shoben, Jr. (753-7500) at any time.

Others you may wish to converse with are:

President Charles J. McCann (753-2544) and Vice President for Business (753-7500).

Sincerely,

Dick Nichols
Director of Information Services
