for further information

Judy Annis, 866-6128

or Capt. Paul Pedersen, 866-6348

Fort Steilacoom Community College will join hands with The Evergreen State College and the McLane Fire Department Winter Quarter to offer a three-credit course on "Fire Protection Equipment and Systems."

The 11-week course is part of a Fort Steilacoom CC occupational program designed to lead to an associate degree in Fire Command and Administration. Captain Paul Pedersen of the McLane Fire Department is organizing the program, which will be offered Tuesday evenings, beginning January 6, from 7 to 10 p.m. in Building 212 on the Evergreen campus.

Enrollment in the program is open to members of all organized fire departments and to those employed in occupations closely related to the fire service. Persons interested in enrolling are invited to contact Capt. Pedersen at McLane (866-6348) or Don Hundven, coordinator of the Fire Command Program for Fort Steilacoom. Hundven, who is also Battalion Chief of the Tacoma Fire Department, can be reached at 593-4086 in Tacoma.
