Ceremonial Mace

Originally a weapon of offense used in medieval warfare by a king or great noble, the mace has been refined into a symbolic device, used on ceremonial occasions. As an academic device, the mace goes back to 16th century England, when Queen Elizabeth I presented a replica of her own royal mace to the corporation of the University of Oxford in 1589. She ordered that it be used in all ceremonies to represent the royal presence and the authority granted to the university to issue degrees under the royal insignia. Since that time, it has become increasingly the custom for European, and now American, colleges and universities to use ceremonial maces during graduation exercises.

The Evergreen State College mace is a gift from the late Byron Youtz, former academic vice president and provost, who donated the materials, and faculty member Earle McNeil, who gave his time and talent to its creation.

The shape of the cap is suggestive of a crown and represents the principal integration of knowledge and experience. To remind us that such an integration is a carefully balanced blend of diverse aspects of human nature, there are inlaid four circles symbolizing four major ways of experiencing the world thinking, feeling, intuiting and sensing – and four main characteristics of the human mind – wisdom, innocence, introspection and illumination.

The President's Medallion

Medallions are traditionally worn by presidents and chancellors at ceremonial occasions and are passed from president to president as a symbol of continuity for the institution. The medallion designed for Charles McCann for his inauguration in 1972 was given by Dr. McCann to the Library Archives.

The College's second medallion (which President Jervis wears today) was designed for her installation in September 1994 by Spokane artist Joyce Attwood. It is fabricated of gold, moonstone (from Nepal), paua shell (from New Zealand), turquoise, silver, copper, brass and acrylic and is suspended on a 30-inch chain from Thailand. The medallion design shows an evergreen tree with Mount Rainier and the sea in the background. It is an interpretation of the Evergreen logo, designed in 1973 by Connie Hubbard, the college's first graphic artist. In 1983, the Board of Trustees approved the "tree" as the official college emblem and it was registered with the Secretary of State as Evergreen's logo.

Academic Costumes

The origins of academic dress date back to the 12th and 13th centuries, when universities were taking form. The ordinary dress of the scholar, whether student or teacher, was the dress of a cleric. Long gowns were worn and may have been necessary for warmth in unheated buildings. Hoods seem to have served to cover the tonsured head until superseded for that purpose by the skull cap. Today, many institutions choose to have distinctively colored gowns. The design of the sleeve indicates the level of the degree earned by the wearer and hoods have both the colors of the institution and a band indicating the field in which the degree was earned.

I.

Go, Geoducs go,
Through the mud and the sand,
let's go.
Siphon high, squirt it out,
swivel all about,
let it all hang out.

2.

Go, Geoducs go,
Stretch your neck when the tide
is low,
Siphon high, squirt it out,
swivel all about,
let it all hang out.
